The divine created Adam and Eve. Eve was created from the rib of Adam. They were placed in the Eden which means God has given equal rights to both. But in our modern society, women does not have equal rights. This discrimination makes our world into blood. Women fight for their rights till first days. Some how they were succeeded. But till they do not have equal in all worlds they face inequality. But situation is more worse in third world country. History shows the struggle of women for their rights like "Sultani Ki Jang" and Razia Sultan fought for their rights in battle ground. The women form have of the world population. They work more effectively and they also have more patience than man. In all of these they do not have right. They faces hurdles in many field of life. Like education, politics, domestic violence, Media, games, Health etc. it is considered that developed countries provides equal right. But in developed countries women also faces inequality. However these countries makes law for their protection that are not perfectly implemented in developing countries. Women's are not treated like a animal. They always considered inferior authority.

It is about feminism

which things effect women progress
are their cultural, social and
religious norms. For example in
Saudi Arabia driving by female
is a (greater) Harsh issue today.

They do not allow women for
alone driving and even travel
without the member of family. it
is also the greatest issue. how they
manage male drivers they picked

Right and protect. This protection
is excellently shadowed by their
authorities. Similarly in

South Asia countries women does not
have equal rights. They are half

of the society. But they treated
like inferior. Next come with

South Asia in these developing countries
women faced critical condition. They
face tribal

and their battle disputes. For instance in

South Asia countries culture of
"Kaxo Kaxi" (The girls are given

To resolve their disputes).
They treated like a shoes. For

Example. A 15 year old girl

First come with education, women do not have all rights for getting education. Patriarchal society not allows girls. Because man considered a superior and breadwinner of family while women are inferior. Moreover poor families not allows the burden of education. They prefer boys to go school. For instance they considered that their girls are property of their father, will go their husband house in future. That's also the biggest reason that stops the parent to invest in girls education. Next come with families restriction. The families not send their girls school for safety concern. For instance. The attack of school in Northern Pata. it was the third attack in girl school in one month. which makes the situation more critical. Similarly. The Afghan terrorist occupy the all area. and restricted the all activities of women. which makes inequality. They do not allow for education, business, games. and even not ~~come out~~ from houses with out hijab (Always)

The global world report shows the worst condition of female in their report 2024. These developing countries shows most devastating situation.

Where is the future of feminism

Health. women are not aware about their health condition. For instance, about 40% women die due to unawareness of (health) Breast cancer. It is worst condition. It is the worst situation. Moreover, due to societal norms female not go to hospital in time, which made the situation more complication. For instance they are asking to use home made medicine and not goes to hospital. Now's forceful pregnancies boys. Cause unwanted pregnancy is more effects the women condition. Because unwanted pregnancy causes depression, health complication. For example 21% of women are die during their delivery, or die due to health condition. Their baby also not survive. or die before his first birthday. which shows devastating condition. more over, if forceful abortion also shows that they not know about (gender) inequality. Cause forceful abortion baby girls cause injuries, infections, that the complications that shows the inequality of women.

Not Moreover, women are economically deprived in society. They do not have education. It is the reason they are not getting better jobs. For instance, women work all times in homes and farms without any wages, which cause their social deprivation. Yet, women are depend on male of their families for basic necessities. Next, they do not have technical knowledge like man. They are not getting high wages like man. Not getting promotions due to lack of knowledge and uneffectiveness. The man considered super authority. So all the decision are taking by men. Women most of the time are not included in meets. Or if join meeting, their decision are not considered worthwhile. Secondly, they faces harassment issue in offices. The boss judge them with their personal appearance. For instance, promotion are given on the base of boss favoritism. These, job family are not allows their girls for jobs.

makes progress. But the condition of women are not even improve. They face domestic violence till 21 century. Women are forced for prostitution.

For instance, the Zardema or her sister were victim of prostitution. Those families were forced them for prostitution.

The next comes with forceful marriages. ^{child girls} it is also hinder obstacles ~~in women~~ progress. Situation becomes ^{more} worst after covid 19. The Experts predict that 2.5 million girls are at the risk of child (forceful) marriage which increase psychiatric issue in adolescence. Moreover, Rape

The report of Experts shows that one girl in every movement are become victim of rape. It shows the patriarchal mind of society. Where women just considered a thing for peace. Next with verbal abuse, women

are verbally abuse by their family members.

At the end, women struggles to get their right. Some how they succeed to get it. But they are not getting equal rights as compared to man. They face difficulty in every aspects of life. Make law and strictly implement them. In developed countries situation of women are better, but there they also faces difficulties. But in developing countries situation is more worst. The struggle and law making hope so improve the condition of women. They will also enjoying equal rights in future.
