Q8: **Precis:**

~~The complaint is about the teaching of science in today's time that these books are now degraded and unattractive that needs a change according to contemporary thoughts. For this replacement, the scientific study foundations are preparing those books focusing more on the rational introduction. This can be understandable by the undergraduates but difficult for the beginners or young students to understand because they see them like a fiction and entertainment purpose that will eventually fade away with change of time as they are contemporary. But the most important thing is to not only seek and seeking public education but first to emphasize on problems of humanities because these are not contemporary but will continue.~~

Title:- Addressing The Problems of Humanity ~~Through the Contemporary ones.~~

Precis:- There is a need to focus on the problems of the humanity rather than giving giving importance to other ~~books of science and physics are changing according to contemporary requirement. The committees and scientific study foundations are preparing for the new syllabus.~~ **Topic sentence is not conveying any sense**
