Subject: English Essay.

Code: e2172b

Q Write an analytical Essay of about 1500-1600 words on any one of the following topics below.

Essay: The Dark side of Fast Fashion: The Environmental Cost of Cheap Clothes.

Outline??

(*) Introduction:

No headings in an essay

→ Leave an indent at the beginning of the paragraph to signify a new paragraph

Fast fashion relies heavily on the production of cheap, low-quality clothing made from materials such as polyester.

The production of polyester requires large amount of water and energy, contributing to water pollution and greenhouse gas emission.

Introduction is a single continuous paragraph

Brands that prioritize speed and affordability often out-

trend. However, the industry can lead to contributes the climatic changes, waste, and pollution.

This is not effect of people so why under the heading of how it affects people

(*) Causes of Fast Fashion:

Irrelevant

Affordability that drives the fast fashion. People are influenced by the advertisement of fashion industry and other factors like celebrities, popular movies and dramas.

(*) Major environmental impacts of Fast Fashion:

The major environmental impacts of fast fashion is the enormous amount of waste generated.

Fast fashion brands produce large amounts of clothes to meet consumers for new

Sentence structure

demands for new styles that result in an over production of clothing. However due to the low quality and cheap prices of fast fashion garments, they are discarded after only a few wears leading to an over whelming amount of the textile waste. The production of fast fashion contributes to air and water pollution. Chemicals and dyes are used in textile production such as azo dyes and other heavy metals that end up in rivers and oceans polluting water and threat the aquatic life. However during the production of synthetic material like polyester and nylon lead

However workers in the garment industry particularly women often can face poor ~~for~~ working conditions, long hours, low pay and hazardous environment for working. Now the fast fashion industry is known for its throwaway

culture which promotes the idea of buying new clothes and discarding old ones that resulting in a devaluation of clothing and exploitation in the production process.

Irrelevant

(*) Conclusion:-

Fast fashion may offer affordability and convenience, its environmental impacts are staggering. The excessive use of natural resources, generation of enormous textile waste, air and water pollution and exploitation of labor are all serious consequences of fast fashion.

As consumers, it's crucial to be aware of the environmental impact of our fashion choices and make more sustainable
