If you don't have integrity, you have nothing. You can't buy it. You can have all the money in the world if you are not a moral and ethical person, you really have nothing. Pakistan is a country which is not doing economically but also morally. It is worst condition in our society. The lack of moral value makes distrust. The other countries are not ready to contract with Pakistan. Due to distrust. The factors that affect its morality are technology, culture, society norms, educational system, discrimination between genders. The world Gender Report which was published on 23 March 2024 shows the worst condition of Pakistan. It shows that Pakistan ranked 164 out of 167 in gender discrimination, which affects its reputation, which also destroys the economy of Pakistan.

First comes Pakistan is a patriarchal society where the rule and laws are

For instance, the murdered of ~~S. Dantan~~ manager P. S. Amthar, Kumara was killed by the workers in blasphemy. The ~~the religious blasphemy are~~

major They use religion name for
their person abuse. this makes
negative image of Pakistan globally.
The incident of Jilhana Bazar
where women was accused for
blasphemy for having Shirdi (some
Quranic verses are written on it) The
mob abused the women, shouted
zealous slogans calling for her
to be killed. It also shows the
worst image of morality. Now
it is with wrong use of technology
