Paragraph

As per report by Pakistan Bureau of Statistics, around 0.8 million people have left the home country to insufficient opportunities available for them. Majority of them settled in Middle East, while other flew to Europe.

Brain drain is a global phenomenon in which trained, skilled and intellectual people left the mother country and live a better life in developed country. The situation in Pakistan is getting worse day day. with the country of around 240 million people, around 10 million are living under poverty line. ~~while~~ while 2.5 million children are working as labour instead of studying.

On the other hand, there are various daunting challenges are going to hit the fragile economy of Pakistan. According to a report by labour force Survey, 2021. Around 10% people are working as

sweeper, gardner and labour in different areas of Pakistan. The economic sector is declining, state own enterprises are giving annual loss of 500 billion Rupees ~~ann~~. In such situation, it is difficult for a single breadwinner to bear his family expense.

That is why, people are in search of better opportunities for their future. In 2023, major chunk of youth fled to abroad. It will have far reaching consequences on the home country. The skillful labour will give benefit to other nation. Due to lack of intellectual minds, Pakistan will face <sup>further</sup> decline in sectors. Moreover, the will face hurdles in making policies and other legislations. Around 8 million youth graduated each year from prominent institutions, but due to lack of job opportunities, they are facing social issues. Therefore, street crimes are rising and disturbing the social fabric of Pakistan.

In this regard, Pakistan needs a proactive approach to control brain drain. By making

politics and effective management system. Structural reforms are needed in every sector of Pakistan, along with efficient governance system. Political instability has remained a major hurdle for increasing brain drain.
