

Q#3

(i) Shortage of rain for a week is called drought.

Consequences:

(i) Cattle died from thirst (ii) crops destroyed

(iii) Streams and rivers dried up.

(ii) No, the writer does not endorse the popular sayings about the red sky. According to the writer if these sayings were right then there would be no need for weather science.

(iii) Yes weather forecasting is a science. And it is called meteorology.

(v) People think that the weather is controlled by moon as it held a lot of water so there are chances of the rain.

(iv) Forecasting weather is not easy because there are a lot of things which affect weather. There is a dire need to study them properly before forecasting the weather properly or accurately.

Q#7

Recently a brawl occurred in the fair of books in Lahore. Because instead of paying attention on books and <sup>literary</sup> co-curricular activities there <sup>also</sup> were few

Stalls present where food and non-curricular items were <sup>being</sup> sold which ruined the main purpose of fair. Many of the participants showed disappointment towards this and felt that the fair of books became the market of food stalls mostly in which the place and attention for books, writers and literary dialogue were less. In this fair instead of paying more focus on food stalls the studying and the soldness of books should be preferred. An argument started regarding this whether this function was fulfilling its literary purpose or just for the promotion of the business was preferred.

## Q#2

Goal : To Attain Peace

The war makes no sense in the present age because the nuclear weapons used today can cause destruction to the generations yet unborn.

A lot of money is spent on nuclear weapons every year in order to make sure that ~~we are~~ <sup>those weapons</sup> cannot be used if purpose is to attain peace.

The writers speak about the peace. Some people believe that peace is not possible until the

leaders of the nations do not change their attitude. This is possible only if people change their attitude. Everyone who is in favour of peace first look inward and examine the behaviour towards peace. These problems are created by man and solution is to clear the goal to the people that it can be manageable.
