

Question 03  
⇒ Comprehension  
Answers

(i)

Drought is disaster and it has severe consequences. Before explaining the consequences of drought, it is pertinent to understand drought itself. Drought is a condition of weather when no rain fell to earth for a longer period of time. This absence of rain brings undeniably severe consequences. These include dried streams and rivers. Moreover, it causes the death of cattles. Most severely, it ruins the crops and create anxiety for farmers. Therefore, drought is a disaster and it impacts cattles and humans.

---

(ii)

No, the writer does not endorse the popular sayings about real sky. Opposite to this, the writer considers them mythological stories. Moreover, the writer raises his suspicion regarding refuting mythological stories by asking a rhetorical question regarding the validity of these fictional stories. In addition to this, the writer argues that if these stories are true, then there is no need of weather forecasting science and meteorology. Thus, the writer does not endorse the popular stories about real sky.

---

(iii)

Yes, the weather forecasting is a science and it is called meteorology. The purpose of science is to present facts and

rejects mythological stories. Similarly, the weather forecasting provides facts about the weather and rejects prevailed mythological notions among people. The name of this science is meteorology. Therefore, the weather forecasting is a science because it provides factual information.

---

(iv)

It is not easy to forecast weather due to several reasons. Firstly, many different things affect weather and these things create difficulty in forecasting the weather accurately. Furthermore, it is a time-taking tasking because each aspect has to be studied carefully before making a final judgement. Additionally, rejecting mythological stories and presenting facts is a hard task. Hence, all these factors make weather forecasting

a difficult process

---

(4)

The moon would help the people in forecasting weather in mythological stories. The people used to say that moon controls the whole of the weather. Moreover, it was believed that moon controls the weather because it had so much water. And when the sight of moon is lying on its back means that rain is coming. The sight of moon used to help people in weather forecasting. Hence, the sight of moon helped people in weather forecasting.

## Question 02

### Precise

Title: Establishing Peace in a world full of weapons

The people should strive for maintaining peace instead of a total war due to the threat of nuclear weapons. Currently, the total war would be highly destructive because of the long-lasting repercussions of nuclear weapons. However, expensive nuclear weapons have become an efficient medium of maintaining peace. Despite this, peace is necessary for everyone. While some argue that it is useless to speak about peace without the consent of world leaders. Their consent depends on the people. The internal examination of every citizen and change in his attitude <sup>can</sup> contribute in maintaining peace. ~~Many describe this~~ Many do not agree with this. Since this problem is a man-made, the clear purpose can help in maintaining peace.
