(6.4) Lack of fan following.

Case in point.

in the FFA world

cup women winning five consecutive medal talk half of the minute while man winning 2 consecutive medal have coverage about half and hours.

کبھی کبھی خواتین بھی
عورتیں ہیں جو قوم کو سنبھالنے

“ Sometimes, women become
Maryams, Evas and Zahras
Women and save the nation
in every era.”

It was assumed that
Germany won the II world
war due to their advance
weapon and Zeal or Zeal. But
they were lost in war. The
evidence showed that when
Germany prevent the women
work outside, at the same
time Queen Elizabeth II worked
in a factory (automobile) to use
her human potential. The result
was clear European people won
in war and German lost.
This shows that Nation could
not win anything without giving

equality. Women are struggling from ancient time. In the time of Victorian they had not permission to participate in game. It **was** considered that women are fragile. They do not have ability to compete in games like men. It is also a social stigma, women considered inferior to men. The Victorian era it is assumed that games **consume** more energy which affect the women physical condition. Moreover, sometimes, injury may be happened, which damage her physique of body that are not suitable for male. Therefore, they have not permission to participate in any activity. In 17th century, they were get permission to join Olympics. While in 1887 women Games League was started.

which was held by the
effort of Emile Parkhurst.
she was a feminist activist
About 50 years before women
get permission for joins the
activities of games. Even in
2012 Summer olympics women
did not allow to participate
in all games. They are
still struggling for their rights

The current situation
of female in playing field
is better, but still, she is
facing gender discrimination,
social stigma, financial issue
and lack of supports. The
women are performing very
well in many game. But still
they are not allow to
participate. According to
survey about 1.3 million girls
drop-out from game at
the age of adolescent. Because

the society considered, women are inferior. Their responsibility is to staying in home and perform house hold responsibilities moreover, the fear and financial issue are the main obstacle on the way of women athletes. Parents considered the girls do not stay their home and move their husbands house. So they do not invest money on them. Male are bread winner of family, so most of the facilities are gives to them. But the continuous struggle of women^{will} change the behaviour of society in future. Therefore, some reform are required that help them to makes her recognition in sport that are financial supports safety gender equality, Transport facilities etc.

The inequality means that every member of society do not have equal chances of spend life in the similar way women face gender discrimination, stereotype society, Economical issue affect their recognition in society.

Firstly, women faces discrimination in the field of sports. The female considered fragile while man are strong in stereotype society. Therefore, women not allowed to participate in sport because it is thought that women are weak. They have low energy level. Therefore, they do not play in ground. For instance about 90% female left the sport in adult age while male are just 4%. Moreover, the society not support

The female players they consider that the responsibility of female are doing their house hold and mother hood. Therefore about 30000 female gets marriage before reaching the age of 18 years. which affect their carrier- and they are not performing well. and not able to make her recognition. Next come with safety issues women are facing safety concern. According to female athletes during TV show. she tells that every female athlete facing sexual abuse at least once a life in playground. Therefore parents not allowed their daughter to play. They keep them in home. They think that home are a safe place for them while the transport another obstacle

for them. Society never allowed the girl travel alone and drive alone so they need a male member of family for driving. because the playing field are present at the site area of residence which increase safety issue. For instance the public transport are also not safe for women. Because about 89% of sexual abuse cases were record on public transport station according to Aurore foundation.

Next come with, financial disparity, women faces low wage issue as compared to their male counterpart. in FIFA world cup man earn 35 dollar million while women only 2. which is 33% difference between their wage. more

the bound allot. 41,965 dollars while man received 1.5 million dollars. its a huge difference that effect the women performance. The other issue is financial dependence in 2012 USA female vallyball team were playing tournament in which 50% women do not receive any wage. Therefore, they are depend on their families. That are not allow them to participate in sport. Next come with luxiouser object. man received more luxiers as compared to female in Olympics Ronaldo earn 35 million and he was the expensive player of league while female that won the 5 consecutive medal not earn even half of the Ronaldo. which hinders their practice and other circumstances.

also disrespect the year

Moreover, media
coverage also a
biggest dilemma because
they do not have
recognition on media
