

Part-11

Q.2

Peace: A Product of Attitude

In a world full of deadly weapons, full length war does not make sense.

The force of one nuclear weapon is ten times ^{of} what was witnessed during WWII.

It also has the far reaching impacts on the environment and upcoming generations.

These weapons are acquired to counter balance security threats, which is essential yet not enough to maintain peace.

Peace is a rational ending of a man. Some argue that peace is possible, if war lords

examine their attitudes. The attitude

of an individual ^{still} holds an equivalent

importance, as of a world ^{leader}. Peace comes

from within. The idea that it is impossible

is an acceptance that war is inevitable

and peace is not. Hence, a clear, concise

individual attitude towards attaining peace can help others see it too and stay hopeful.

- v. If you study the material very thoroughly, you will have no

trouble in the examination.

vii The course will commence on 1st May, 2025.

iii The article discusses, in the most part, the possibility of life on other planets.

Q. 5(A)

A fly sat on one of the shafts of a cart and said to the mule, who was pulling it "How slow you are! Do mend your pace or I shall have to use my sting as a goad." The mule was not in the least disturbed. Behind me, in the cart said "He sits my master, he holds the reins, and flicks me with his whip and him I obey, but I don't want any of your impertinence, I know when I may dawdle, and when I may not."

(Q.07)

Recently, in a book fair in Lahore a conflict occurred, because, instead of focusing on books and literary activities numerous stalls were installed, which were selling food and non-literary items, that forsaken the purpose of the festival. Number of participants expressed disappointment and felt that "book fair" has become a food market, in which books, writers, and academic dialogues are given lesser space and attention. Due to more stress on food stalls in this festival, instead of promoting books' sale, a debate started whether this event was fulfilling its purpose or only the trade interests were being preferred.

Q.03

(i) Drought is a weather condition, in which no precipitation occurs for a longer period. As a result, rivers and streams dry up, livestock like cattles die from thirst and agricultural activities stop due to lack of water.

(ii) No, the writer does not endorse the popular saying about red sky. According to him, it is often wrong and if sayings like this stand true then there is no need of weather science. Thus, the writer does not endorse such sayings.

(iii) Yes, the weather forecasting is a science and it is developed over the year. It is known as "weather science or meteorology."

(iv) It is difficult to forecast the weather, because multiple factors affect the weather and each one of them need to be studied carefully.

In ancient times, farmers and sailors ^{try to} study weather patterns with the help of sky, birds, and smoke of fire, which was quite tough to understand.

v. According to the writer, initially people tried to predict weather condition with the movements of the moon.

It was assumed that moon held a lot of water and sickle shaped moon

laying on its ^{moon} back means a rain is on its way. Few people use

Day: _____

Date: _____

it even today.
