

Qno- 02

Preserving Peace: A New Approach to Global Stability

The author advocates for peace in the context of modern warfare, emphasizing that today's weapons are far more destructive than those of world war II. These weapons can have lasting effects on the environment and future generations. Despite billions of dollars spent on these weapons of mass destruction in increasing stockpiles for deterrence, this strategy is unsustainable for achieving peace. The author argues that pursuing peace is not only possible but often less challenging than waging war. While many believe discussions of peace are futile, he asserts that every individual who is a promoter of peace can change the perspective by first examining own attitudes. Rather viewing peace as unattainable, we must recognize that we can control our creations. Ultimately, peace is achievable and war is avoidable; we simply need to shift our approach toward it.

Q1

What is drought and what are its consequences?

Ans

The drought is a weather condition that is a period of below average precipitation in a specific region. A drought can last for months or years and can have a dangerous impact on agriculture, livestock and ecosystem. The consequences of the drought are lesser or no rain fall that resulting in rivers dried up and cattle dying. Hence, drought is a severe weather condition that affect the ecosystem as a whole.

Q2

Does the writer endorse the popular sayings about the red sky?

Ans

The writer partially endorse the popular sayings about the red sky. He emphasises how people of today still believe in old practices of weather predictions. He partially endorse the red sky by saying that, these predictions are mostly untrue but sometimes they are right. However, the chances are minimum.

Q3 Is weather forecasting a science; If so what is it called?

Ans The weather forecasting is a science and the study of weather pattern and behaviour is called meteorology. Meteorology is the scientific study of current and historical data of land, ocean and atmosphere to project how the atmosphere will change according to different circumstances and in different condition. Hence, weather forecasting is a science of study weather and its patterns.

Q4 Why is it not easy to forecast the weather?

Ans The changes in the weather is unpredictable that makes it hard to forecast with surety about the weather. The meteorologist lack the ability to continuously observe the atmosphere and provide the data. The forecasting of weather is based on the past events that is the reason it is not easy to forecast the weather.

Q5

How would moon help the people in forecasting the weather?

Ans

People believe that the moon controlled the weather as it has a lot of water on it, especially when crescent sickle shaped moon lay on its back. This signs of moon lying on its back made people believe that it is going to be rain.

Ques-04

(B)

Judge enquired, Mrs Thomson whether he was seeking compensation for wrongful termination. Plaintiff replied that he believed he was unfairly dismissed. On which Judge further asked if he was let go after eight months. Mrs Thomson replied by saying, yes. To which Judge highlight

law by saying employees under a year are not eligible for relief, unless there is an evidence of discrimination or specific rights violation. Mr. Thomson exclaimed with frustration that his rights were violated. The judge said he understood, but without those grounds, he can not grant relief. Lastly, plaintiff asked whether there is something he could do. Judge answered, correct, as his hands were tied by the law. Mr. Thomson thanked the judge and case was dismissed by the judge.

Q07.

Recently, a conflict arose at a book fair in Lahore, because there were food stalls installed that shift the focus from books and literary activities. Where different food and drinks were being sold, which has overshadowed the real purpose of the festival. Many of the participants expressed disappointment and felt that "Book fair" has mostly become a food festival. On which less focus has given to books, authors and literary activities. Due to over emphasis on the food stalls in fair, instead the promotion of steady and set books selling has aroused a debate whether the festival was fulfilling the purpose of the event or just prioritizing commercial gains.
