

Part - IIQ# 2:

Title: War and Peace: A prospect in the new age.

War in the new age is more catastrophic than it was before. The new age holds power of the most advanced nuclear weapons, even as compared to those used in World War 2. The deadliest nuclear weapons hold the power to destroy the globe. The dollars spent on attaining this weapons is a way to acquire peace, but this is not the way of rational men.

Moreover, the concept of peace is irrelevant until the hostile nations of the world aim to pursue peace.

Nations and individuals as a whole need to examine themselves. The proponents of peace should be the first to do it. Self-reflection is necessary, but it should not lead to the conclusion that mankind is beyond saving. Peace is inevitable, and war is avoidable only if mankind works towards it together without backing out.

Total words written = 138.

Q3, Read the passage below.

for weeks on end.

- i) Drought is a period of no rain. During this time of drought several consequences have to be dealt with. These consequences include no rain for long periods of time, drying up of streams and rivers, loss of cattle from thirst along with loss of crop.
- ii) It can be seen from the passage that the writer does not endorse the saying about the red skies. It can be seen from his comment that the sayings are most often wrong and not right. Apart from this, the writer also says if these sayings about weather were true there would be no need for meteorology further solidifying his claim.
- iii) Yes, weather forecasting is a science as it involves scientifically evaluating various phenomena for a fairly accurate forecast. It is called meteorology.

iv) Forecasting the weather even for a few days is difficult as it requires scientifically evaluating and carefully studying many different things that affect the weather.

v) People thought the moon held a lot of water, thus helping them predict the weather. They predicted that a crescent shaped moon lying on its back would indicate rain. Different colors of the night sky also made them predict weather.

Q4 Correct any . . . sentences.

i) The priest joined the bride and groom in holy wedlock.

ii) Allen Turing was a scholar, a scientist, and an artist.

iii) Being thoroughly dissatisfied with the painting, he hid it in the closet.

was struggling with it.

Q6. (B). Rewrite John.

The judge inquired from Mr. Thompson whether he was seeking compensation for wrongful termination, to which he agreed, and also added that he believed he was unfairly dismissed. The judge confirmed if he was released after 3 months to which he replied a yes. The judge informed that according to the law employees with less than a year aren't eligible for relief unless there's evidence of discrimination or a specific rights violation. The Plaintiff in response argued that he felt his rights were violated. The judge sympathised and said that without those grounds he could not grant relief. The Plaintiff further inquired if there was anything he could do. The judge agreed and told Mr. Thompson that his hands are tied by law. The Plaintiff thanked the judge after which the case was dismissed.

Q-13] Translate expulsion

Recently, there was a conundrum at a book fair in Lahore, because rather than paying attention to the books and literature, attention was being paid to various food related stalls and stalls related to non-literature activities. This defeated the actual purpose of the fair. Various participants expressed despair and commented, "Book fair" has mostly become a food market where books and literature were barely paid any attention. In this fair food stalls were highly encouraged rather than books or literature. A debate arose whether this activity fulfilled its literary purpose or was it merely a place where trade was given more importance.
