people feel proud to obey their teachers. That's why, they are progressing in every field of life.

In addition to this, advanced nations celebrate the success of their teachers. Western countries conduct nobal prize ceremony annually to accolade nobal prize to their valuable assets. It encourages their knowledgeable people to pursue their passion for their nation. It adds value in the development of their nation. These celebrations also motivated other able people to work for their nation. Currently, most of the nobal prize winners are from USA, because USA overwhelmingly celebrate the achievements of their valuable assets. Now.

USA. is progressing in all sectors.

Furthermore, it is mandatory for students to obey their teachers. It fosters a culture of learning environment. Disciplined students are well-groomed. They do not disturb the decorum of learning environment. It assist the teacher to convey his message effectively. As a result, students become able to learn each and every thing in an effective manner. It enables them to lead the ~~future~~ world in future. A disciplined environment also polishes their personality. Consequently, students become role model for their nation.

Adding more to it, successful people are more obedient to their teachers. They are mainly known for their well-behaved

manner. with their teachers.

Successful people know the real worth of teachers. They prefer their teacher to everyone.

They give credit to their

teachers. The four Caliphates

were mainly known for their

obedience towards the Holy

prophet (PBUH). They even

sacrificed their wealth in

the love of the prophet (PBUH).

They had excelled in every

field of life just because of

their humbleness towards

their teacher.

However, there are nations which

have completely destroyed, because

they did not value their

knowledgeable people. Muslims

faced downfall during eighteenth

and nineteenth century, because

they disrespected their

clergies. Even now, Islamic countries are too much backward because of their degradation of their teachers. They even do not value their shariah, the Holy Quran and Sunnah. That's why, muslim countries are not progressing.

Moreover, teaching is the profession that teaches all the other professions. A CEO of a company is also a product of teachers. A doctor, who saves many precious lives was once a student of a teacher. In like manner, it is true for all professions. Teachers change the destiny of a nation. They add value in the growth of economy. A country's human capital is the real outcome of teachers. Teachers produce
