

Question No 2

Was destroy the peace and
tranquility of world.

The author describes that the nuclear power countries are controlling the whole world. So the reason of war is not understood. The developing countries have no ability to resist in front of them. The use of nuclear weapons are destroying the atmosphere, water and soil resources. It also remains in air and effect the upcoming generation. Every year, billion of dollars are spending on weapon it is for the protection of world. But the use of weapons bring no peace. The peace will bring through negotiation with leaders of countries. They talk with each other to resolve hostility between countries. It is also the responsibility of nation to change

their attitude. Most of them thought that individuals do nothing in maintenance of peace. But it's a false notion that war is inevitable. It is curable. It is duty of individuals to set goals and not follow the extremism forces. In this way, they will surely protect their country.

Total world 428

Precise world = 155

Question No 3
