Title: Pursuit of Peace

In this era of war, it does not make sense to engage in war when the capabilities of great Powers ranges from handling and designing disastrous nuclear weapons to producing deadly poisons which can impact the entire globe and the coming generations. For Peace, there is no need of war and using a chunk of resources to produce the weapons that would never be used. Some people believes that Peace is the duty of leadership with no role on the part of people. But that is not the case, people also need to change their perception towards Peace because perception matters a lot. All the problems are created by man himself. Peace is not impossible and war can be avoided. By making Peace as a goal, the perception of people can be changed.
