

Q2: Precise:War And Peace.

War make no sense, but peace does. It is useless to use atomic bomb that has ten times more powerful explosive force than Allied ^{Air} forces used in WWII. It affects those who are not born yet. To spend billions of dollars on nuclear weapons to ensure peace does not make sense, because it is not the only means of achieving peace. Peace is a rational end of a ^{rational} man. Those who speak of a peace are not listened by those who say that it is useless to speak of a world peace unless the aggressors change their attitude. To think of it as unreal and impossible is dangerous. As it leads to the conclusion that war is inevitable. It should be remembered that war is a man-made problem and it can be avoided. This can be done by setting our goals clearly, more manageable and at hand.

Q3: Answer the questions.

A drought is a condition, when rain does not fall for a weeks, streams and rivers ~~are~~ dried up, cattle die from thirst and crops ~~are~~ ruined.

ii

The writer does not endorse the popular sayings about the red sky. The author says, if it was true, there would be no need of science and technology.

iii

Yes weather forecasting is a science and it is called meteorology.

iv

It is not easy to forecast the weather because weather is affected by a number of factors. Each factor has to be carefully studied before we make an accurate forecast.

v

Man thought that moon control the weather. It contains a lot of water, especially, when the moon is in the form of sickle shaped and lay on its back. When the moon is on its back, it means that the rain is on its way.
