

Water Crisis in Pakistan Causes and Consequences

Brain Storming:

Outlines

1. Introduction:

1.1 - Hook

1.2 - Water Crisis in Pakistan

1.3 - Thesis Statement

2. Main Body:

2.1- Causes of Water Crisis in Pakistan

2.1.1: National Issues:

- (i) Distribution issues among Provinces
- (ii) Poor infrastructure
- (iii) Miss management and bad policies

2.1.2: Climate Changes:

- (i) Global Warming
- (ii) Unusual Raining
- (iii) Green house effect

2.1.3: Over Population:

- (i) Water demand increases
- (ii) Usage of ground water (for car washing, garage)
- (iii) Urbanization

2.1.4: Industrialization

- (i) Release of Waste material into streams, rivers
- (ii) Reduced level of underground water
- (iii) Poor filtration process

2.1.5: International Issues:

- (i) Pakistan- Indian water conflict
(Indian dam on Indus River)

- (ii) Growing pressure on fresh water supplies

2.2. Consequences of water Crisis in Pakistan

2.2.1: Economic Issues:

- (i) Agricultural Issues
- (ii) Poverty
- (iii) Inflation

2.2.2: Health Issues

- (i) Scarcity of water causes water pollution
- (ii) ^{waterborn} Diseases i.e. Diarrhoea, Typhoid, polio etc
- (iii) Skin Diseases. (Hygiene issues)

2.2.3: Environmental Issues

- (i) Floods, melting of glaciers,
- (ii) Shortage of food
- (iii) Shortage of water in future

2.2.3: Conclusion

Introductory Paragraph

"Water, Water, everywhere, And all the boards did shrink; Water, water, everywhere, Nor any drop to drink" **Samuel Taylor Coleridge**

Water is the most important ingredient for human life. **71%** of the Earth's surface is covered with water. and the oceans holding about **96.5** percent of water but we have still water crisis. Whole world is facing the water issues but the developed countries are facing this issue and dealing this issue better than under developing countries. Water crisis is not a new issue but in future it may cause serious problem. Pakistan is one the country facing the worse water crisis. There are alot of causes for water crisis in Pakistan, some are national causes like the issues of water distribution among provinces, Poor infrastructure, rain management and poor policies. There are also some serious climate issues like unusual raining, Global warming. and ~~some~~ ^{the} most serious issue of population growth, urbanization which causes water shortage and Industrialization. Pakistan also facing international issues like India-Pakistan water conflict etc. All these causes of water

of crisis causing severe consequences
in Pakistan like it causes economic issues,
Health issues and environmental issues

So, Government of Pakistan should have to
take this problem seriously otherwise it ^{will} become
more worse.
