Please enhance length of each answer

Read the passage carefully

He does not endorse the popular sayings about the red sky. He declares that it is (mostly) mostly wrong. He argues that if these popular sayings were correct then meteorology and study of atmospheric events does not exist.

**Q no: 3 Explain**

Weather forecasting is a branch of science which is called meteorology, the study of weather and climate of a region.

**Q no: 4**

Forecasting the weather is not an easy task because weather is affected by several things. And to precisely and accurately forecast a weather requires the careful study of all these things

**Q no: 5**

In the ancient times and even in this modern age, people believe that moon controls the weather.

They thought think that moon with a crescent shape and pointed ends upward hold water, so it is a sign of rainfall coming soon.
