- 2) Humanitarian impact.
- 3) Nuclear war risks and escalation.

- 4) Regional Stability and Security.
- 5) Environmental consequences.
- 6) Domestic impact on both countries.

Make elaborate headings

### c) How

- 1) Strengthen Defence of Taiwan
- 2) stockpile essential resources.
- 3) as pursue a policy of double deterrence:
- 4) Taiwan must avoid declaring independence.

### 3) Conclusion:

## Introduction:

Taiwan has the potential to trigger conflict between china and USA. The reasons responsible for are various. For china, Taiwan is important due to several factors, like, Trade between them are higher than with USA, Supplier of Semiconductor chips, china policy of reunification, other states could claim independence if ~~china~~ Taiwan become independent. For USA, it is important due to its political system, presence of ~~western~~ companies in Taiwan. To encircle china: This conflict must be avoided due to effect on global trade, human <sup>impact</sup> ~~trade~~, nuclear risk and escalation on regional stability and security, ~~so~~ environmental consequences, global political fallout, domestic impacts on both countries. The conflict could be avoided by strengthening defence of ~~china~~ Taiwan, Taiwan should stockpile essential resources, US adopt a policy of ~~double~~ deterrence, Taiwan must avoid declaring full independence, policy of ~~triggering~~ deterrence should be pursued.
