

PRECIS

The idea of total war is irrational in modern times. Great nations possess destructive nuclear weapons which pose an immense threat to humanity. A single nuclear weapon is more powerful than all the Allied air forces ^{ever} _{don't mention} in World War II, harming the coming generations. Nations spend billions annually for the production and acquisition of nuclear weapons. Peace rather than war should be the goal of mankind. Many dismiss the idea of world peace as unrealistic, but it is possible. If nations change their attitude which perpetuates conflict with one another. We must accept the fact that war is avoidable, through by taking peaceful measures and approaches towards one another. It must be our goal to work on the ground of mutual understanding, only then peace is achievable.

Q: (i) 3 (Ans)

Drought is a period when weather events such as lack of rainfall affects both the environment and the people. During a period of drought, agriculture crops are damaged. Prolonged absence of rain dry up wells and rivers. Animals lives become difficult due to unavailability of water which exacerbates the crisis of hunger. People who live far away from the river banks face hunger and food shortage in times of drought.

Q: 3 (ii) (Ans)

The writer does not endorse the popular sayings of the old sky. Instead he argues it's a misconception to believe in things which seem to be right but in reality they are not. The writer emphasizes the importance of weather science and meteorology which predicts the weather conditions based on observations not on sayings like Crescent moon.
