Q1 Work: The Main Object of a Well-Educated and a Trained Men

Q2 OR Work Comes First

Money is important for living a better life. But for a well-educated, intellectual, or brave man; the main purpose of his life is not a money but his work. For example, a brave soldier fight for the sake of his country. He likes his pay but his purpose is to win the battle. Same is the case of clergy men, whose purpose of life is to preach others not to be paid for preaching. Doctors like money but the object of their lives is not fees. Their object is to cure the sick. ~~and~~
