Q: Write a precis of the following passage & also suggest a suitable title.

Title: Money is necessity but not priority.

or Healthy minds not prefer money.

Precis:

It is impossible for a sensible man to make money a goal. Healthy minded people like money but its not a main goal or object of their lives. Healthy minded people love to make money by their efforts or work. They enjoy the feeling when they

get money as a reward or pay back of their hardwork. This feeling is better than the thing when they make money a priority. A soldier, always focus on his fighting skills rather than to be paid for that fighting. So, of clergymen. He is to preach and guide people to their religion instead of focusing on the reward of guiding. So, of doctors. They are to cure their patients. They like money and it's a good thing but didn't make it their priority over to cure the sick. So, with all healthy minded and ~~rightly~~ well trained ~~disciplined~~ men, they prefer work first <sup>priority</sup> and make money a second priority as it is also important.
