

Serve: Money will ultimately achieve
The basic aim of a capable man is
to serve the people in his field, not
to make money. Because he thinks that
money is the secondary object which
will ultimately achieve in offering
service to the people. Like a good sol-
dier who feels happiness in getting
his fee but his main goal is to win
the wars. Same is the case with a
good preacher and a good doctor. He
treats a patient carefully rather than
taking care of money.
