For

value of work vs. Money

For a well-educated, intellectual and healthy minded people; ^{making} money should not be the main purpose of their lives just like how enjoying dinner is not life's main objective. As, a good soldier's aim is to win battles, not to be paid; a clergyman's purpose is to preach, not to earn money; and a doctor's job is not to heal, not just to collect ^{the} fee. So, for all the ~~the~~ proficient men's, the value of ^{this} work comes first, and money is secondary, but still important.
