#### Title: Healthy Minded People Prioritize Work Over Money

Healthy minded man cannot set money-making as his main objective. Like dinner for healthy people, winning money is liked by healthy sound minded people but is not their goal. A brave soldier may complain for not getting his pay, still the purpose of his life is to win battles and of a clergyman to preach. Similarly, ethical doctors prioritize treating the patients and saving their lives over the fees. Hence, for a well trained person, fees are of secondary importance.
