Batch: 59

Q: Translation

History is full of those successful people who had started their life with too much hard situations, but ahead they counted as the successful and famous

personalities of the world.

Success, respect and never

gives you in a dish/plate only wealth can be given

in a plate/dish but for that there is also a condition

that it should be to your ancestors, then you will get that wealth.

By wealth you can purchase things but not the happiness.

Sometimes it takes centuries to get respect but it takes a

moment to get disrespect and controversy.
