"English Precise & Composition" (Test - 1)

Title:

Humanity first ; not money

Precise:

The author said, the basic priority of every man is to earn money. But for a healthy person, money may not be the only priority, as his dinner. For a soldier, his fight always come first and for a doctor his patient's health might be on priority. But still there is one thing that prioritized by all of them and that is their passion, which lead them do their work honestly instead of just keep focused to earn more and more money. A good Human being always prioritizes his duties on money.
