

## "Translation"

If the world does not pull you toward itself, if your eyes become teary due to God's fear, if the imaginary picture of hell inculcates the fear of Almighty in you, if you worship Allah the way it should be, if goodness attracts you toward itself and you stop to be on the route of badness, then you are virtuous. Some people are being virtuous while some use to become virtuous. Being virtuous is a matter of luck. Whereas, becoming virtuous is all about efforts and sacrifices. It takes time and tolerance as well.
