Brave men Objectives

The author says that a courageous man cannot earn money physically as his main focus is to earn his dinner. Similarly, healthy people like their dinners but it is not their main concern. On the other hand, healthy minded people like to make money but they also enjoy their lives. For instance, either a good soldier, or a clergyman or a doctor, they all like to earn money but they like to do their work first and pay is their second concern.

have you really read the passage??????????????
???

Total Passage: 230 words

Précis: 80 words

FS

read the passage carefully !!!!!!!
where is it written what you have presented in the
precis?????????
