Q: Translation

History is full of those successful people who ~~had~~ started their life with too much hard situations, but ahead they counted as the successful and famous

personalities of the world.

Success, respect and ~~new~~

~~gives you in a dish / plate~~  
~~only wealth can be given~~

~~in a plate / dish but for~~

that there is also a condition that it should be to your ancestors, then you will get that wealth.

By wealth you can purchase **material** things but not the happiness.

Sometimes it takes centuries to get respect but it takes a moment to get disrespect and

controversy.
