"English Precis & Composition" (Test - 1)

Title:

Humanity first ; not Money

Precis:

The author said, the basic priority of every man is to earn money. For a healthy person, money may not be the only priority, as his dinner. For a soldier, his fight always comes first and for a doctor his patient's health might be on priority. But still there is one thing that is prioritized by all of them and that is their passion, which helps them do their work honestly instead of just keep focused to earn money and more money. A good human being always prioritizes his duties over money.

necessity

Suggested titles for today's precis

"Money is not the End"

"Profession as a priority over money"

Suggestions for improvements:

Do not make complex compound sentences

Begin and end precis with a precise/short sentence

Avoid enlisting

Do not explain all three examples separately, rather

give an essence
