"Money is not the End"

"Profession as a priority over money"

Precis:

Title: Purpose Before Pay

A well educated or brave person can not make money their main focus, they do not center their lives around their dinner. While they enjoy making money, their primary focus is their work, such as a soldier's aim to win battles, a clergyman's mission to preach or a doctor's goal to cure patients. For such individuals their work is primary and the pec is secondary but important.
