

Batch: 367

Translation:

History is full of the peoples who started their lives in hardships but known as the most successful and famous personalities of the world now. Attainment, dignity and eminence are not a piece of cake, you can get the wealth only if it is the possession of your ancestors and then you got it. We can buy the materialistic things by wealth but not the happiness. Sometimes it gets decades to earn that respect and a moment is sufficient to lose it.
