Question: Translate the following into English, keeping in view the idiomatic/figurative expression?

History is replete with examples of individuals who rose from the ashes of adversity to become paragons of success. Prosperity, esteem, and renown are not handed out like candy; only riches can be inherited and even that demands a pedigree of affluence. Wealth can purchase luxuries, but not joy. Respect is a masterpiece painted with brushstrokes of time, while infamy can be crafted in the blink of an eye.
