

Title: ~~Purpose before Pay~~

Write short sentences

plz

Precis: A well-read, brave person does not prioritize money above their life's work, just as one does not make dinner the focus of their existence. While making money is important and enjoyable, it should never outweigh the primary mission of doing good work. Soldiers, clergymen, doctors, and other professionals aim to fulfill their duties first, with payment being secondary. True fulfillment comes from the work itself, not the financial reward.

Suggested titles for today's precis
