

Serve: Money will ultimately achieve

The basic aim of a ~~capable~~ man is to serve the people in his field, not to make money. ~~Because~~ he thinks that money is the secondary object which will ultimately achieve in offering service to the people. Like a good soldier who feels happiness in getting his fee but his main goal is to win the wars. Same is the case with a good preacher and a good doctor. He treats a patient ~~carefully~~ rather than taking care of money.

Do not begin new sentence with because

Do not elaborate example
