The Essay,

Pakistan overseas employment corporation. around 21,000 professionals have migrated to other countries in last 15 years. Human play a crucial role in country peace, stability. It not only attract foreign direct investment but also help a country to maintain its competitiveness in global market. In every region of world, talented and intelligent individuals are desired. They are drawn to wealthy nation because of higher income, availability of cutting edge technology and more stable political environment. The majority of migration is from poor or under developed countries to western industrialized and advanced one. The intellectual of nation are among its most valuable resource since they committed time & money to their education & training.

making mobility one of greatest
losses to such nation. Brain drain
has caused many countries due
to political, economic, education
and social cause which has
drastic impact on politics, economy
& education and social one country.
