Imperial hierarchies left a deep and lasting impact on both colonizers and the colonized, shaping governance and social norms. Even after formal independence, colonized societies internalized colonial structures and values, viewing decolonisation

moral loss

Postcolonial memory remains divided: former colonies remember oppression, while colonizers mourn lost influence

as incomplete. Post-colonial nations often continue to struggle with fragmented identities and unresolved political consciousness, rooted in their colonial experience.

In political science, the term "nation-state" is commonly used.

Read the question Paper and see the Urdu Paragraph again

in modern political and social questions, this term holds significant importance. According to western thinkers, the nation state is a political unit that comprises one nation. According to professor Madner, a nation is a community of common life. Pakistan is an example of such nation-state. It emerged on the world map 1947, as a result to the efforts of sacrifices of Muslims in the India subcontinent. The dream of an independent Muslim state became a reality under the leadership of Quaid-e-Azam Mohammed Ali Jinnah. Before independence, Muslims in India were not only a minority but also faced numerous political and ~~social~~ religious, and economic difficulties. Pakistan's total area 252,030 square miles. The country consists of four provinces and one federal capital. Its population is around 32 crores (320 million), and Karachi, which was the capital until 1960, is now the largest city and main port of Pakistan.
