IS THE WORLD BLIND TOWARDS PLIGHT OF PALESTINIANS:

Brainstorming

↳ Humanitarian and Social Crisis

Food Insecurity

Collapse of Health System

Inaccessibility of clean drinking water

Indiscriminate targeting of Palestinians

↳ Conf. Infrastructural loss

vulnerable living condition — tents.

Bombing on hospitals, religious places, schools etc

↳ Complicit International Law and order?

UNSC Resolutions.

ICC and ICJ Rulings.

↳ Erratic Attitude of Global Hegemon

Constant Vetoing

Unhinged backing of Israel.

↳ Humiliation through global displacements plans

Middle East Riveira

OUTLINE:-**1 Introduction:-**

Thesis: World is turning a blind eye towards Palestinian Plight.

2 How the World Turned blind Eye towards The Plight of Palestinians:

I) Largest humanitarian and social crisis ~~are~~ being overlooked across the globe.

a) Limited Access to Basic Necessities: The ignorant eye to world towards its own long withstanding humanitarian agenda.

^{Imposed} b) Food insecurity; a Mockery of world's Sustainable Developmental goals.

c) Collapse of Health system in Palestine: A question over Global Conscience.

d) Indiscriminate killing of civilians; An open war crime yet no accountability

II) Conflict Ridden Infrastructure exposes the world Complicity.

a) Vulnerable living conditions: A ~~para~~ Dilemma of World's Hypocrisy.

b) Indiscriminate bombing of Infrastructure: A New Normal for World.

III) Credibility of International Law and Order: A Reality or a delusion.

a) Vetoing of UNSC resolutions by World

TE: ___/___/___

powers: Complicity or biasedness?

b) The Feelings of International Courts over the Palestinian plight lie somewhere between blue and water.

IV) Erratic Attitude of Global Hegemon: Is peace broker or a business player.

a) Essential component of US Foreign Policy is to protect Israel thereby a tilt towards Israelis.

b) Preferring Israel over Palestinians to avoid losing its largest military market.

~~delusory~~

delusory

V) Humiliation of Palestinians through Global displacement Plans Instead of Rehabilitation — Middle East Riviera.

VI) Conclusion:

THE ESSAY:-

"And when it was over, we made a promise. We said, 'never again' and we meant it ... because 'never again' is not just a phrase or slogan. It is a promise." (UN General Assembly Presidential Address 2018). The narrative that was built following the Auschwitz where genocide of around 3 million Jews occurred. The whole world condemned the event and committed to prevent this from happening again in the future. The international institutions were enthusiastically established and their agendas were set to ensure global peace and avoid any such ethnic cleansing in the future. But unfortunately this narrative could not last long practically. In fact, the population that bore the brunt of Auschwitz is itself repeating the Holocaust to another population that shared its lands with them during their sufferings. It claims that its rivalry is to a specific terrorist group - Hamas - not with civilians but the need grounds speak a different language. The Palestinians (suffering) plight started the day when they shared their lands to a conflict ridden population. However, these sufferings intensified following October 7, 2023, when Hamas the terrorist group attacked Israel and resolutely the latter launched a full

DATE: ___/___/___

pledge was against Palestine prospective of terrorists and the civilians. Since, then the impact of bombs dropped on Gaza - A city of Palestine is more than the combined impact of bombs dropped in World War II. The same world which decided to not let such atrocity (World War 2) happen anywhere in the world eventually turns a blind eye to the suffering of innocent Palestinians. The largest humanitarian and social crisis, the conflict ridden infrastructure, credibility of International law and order and global dynamics are all at stake due to complicity and ignorance of world. The global hegemon which could have played the role of a mediator for brokering peace is acting more like a business player. All this added more to the suffering of Palestinians yet, provided protection to Israel. Therefore, the world is clearly turning a blind eye to the plight of Palestinians.

To begin with, after the world war 2 the largest humanitarian and social crisis are being unfolded in the Palestine. However, the world seems to ^{be} get away with it. The same world that emphasized the need of global institutions like UNHCR UNRWA etc is now watching with complicity to around 2 million people of Gaza

DATE: ___/___/___

concentrated on a narrow strip the basic necessities of life are not available. The observer for the Palestine sard in UN "We fear that world is growing accustomed to the unbearable, to the unacceptable". Therefore, the suffering of Palestinians for even the basic needs is being overlooked by the world.

Secondly, the world complicity brought food insecurity and hunger crisis over the narrow strip of Gaza. On one hand Israel is using aid as a tactical tool to fuel its ethnic cleansing and to achieve the goal of greater Israel. On the other hand the civilian sufferings continue to increase in the shape of starvation and hunger. The UN office for Coordination of Humanitarian Affairs director said: There is no longer a looming hunger crisis - this^{is} starvation, a pure and simple. Therefore, it is not only Israel responsible for food insecurity in Gaza but the whole world itself.

Thirdly, collapse of health system in Palestine is the another factor which has intensified the flight of Palestinians just like the ignorance of world ^{has} allowed Israel to do whatever it wants to, it did the same for health facilities as well. The largest hospitals on the strip are either non operational or partially operational now. Due to unavailability

DATE: ___/___/___

of health services the people especially children are dying of malnutrition - another diseases. According to United Nations Humanitarian office for Coordination of Humanitarian affairs: 98 children have died from acute malnutrition since the start of conflict in Oct 2023, with 37 of those deaths since July. Therefore, the due to complicity of world health system is at the brink of collapse just as the Israel wanted.

Another war crime that the world turned blind eye to is the indiscriminate killing of civilians. According to United Nations Charter and International Law: It is a war crime to kill civilians during the war.

However, the world complicity provided Israel with the power to take International Law in its own hands as it is indiscriminately killing women, children, doctors, journalists - the civilians. The Watsons school of International and Public Affairs' cost of war project recently revealed that Israel has killed more journalists than US Civil war, world war I and II, The Korean war, The Vietnam war... The wars in Yugoslavia in the 1990s and 2000 and post 9/11 war in Afghanistan, combined.

one of many destructions in Palestine that the world turned blind eye to is the destruction of infrastructure. Due to indiscriminate

DATE: ___/___/___

targeting of hospitals, schools and religious places people are forced to take refuge in tents. However, even the vulnerability of these conditions couldn't shake the world conscience and Israel continued to carry out its atrocities and massacre in their hidden infrastructure.

The indiscriminate bombing of infrastructure has now become a new normal for the world. It is the world that gave Israel this much confidence that Israeli PM recently declared to take complete military control of Gaza. The 2 million civilians with unknown future will be either forcefully displaced or massacred brutally. However, these civilians are determined to not leave their lands and returned to the rubble of their homes which will take another eternity to rebuild. According to United Nations estimate it would take 350 years to rebuild Gaza under the current conditions.

The International law and order which give protection to every individual across the globe seems fractured in the addressing the plight of Palestinians. The International Institutions which even solved the boundary disputes between the countries in the past are unable to protect a country and its population which co-existed with the rival. The United Nations Security Council passed

DATE: ___/___/___

many resolutions to broker a ceasefire but it all ended in vain due to vetoing of a global power. therefore, it is the world's ignorance that is intensifying the sufferings of Palestinians.

To ease the guilt of world conscience it once took the case of Palestine to the International court of Justice. International Court of Justice ruled in the favour of Palestine and International criminal court issued the arrest warrant of Israeli PM. However, these hollow rulings appeared to be somewhere between blue and water as it remained unimplemented.

Another reason for ignorance of Palestinian plight is the erratic attitude of global hegemony which is acting more like a business player than a peace broker. It considers Israel's protection as an essential component of its foreign policy and backing and protecting Israel in every possible way. During the recent Emergency United Nations meeting US convey to UN said "Israel has a right to decide whatever is necessary for its security and what measures are appropriate to ~~maintain~~^{end} the threat posed by Hamas". Therefore, the complexity of global hegemony is the complexity of world since he is the world leader. Hence the global hegemon consider it as its national interest over addressing Palestinian

DATE: ___/___/___

plight.

Another reason for Palestinian plight ignorance is the business interests of the global hegemon. It serves as the understood military complex for Israel which the former President Dwight Eisenhower already warned off in 1960. However, the global hegemon even turned a blind eye to its own history as reported by in fiscal year 2024 US foreign military sales have increased 45% than fiscal year 2023 (FY 2023). Therefore, the tilt of global hegemon in increasing its military business underscores Palestinian plight.

Lastly, the sufferings of Palestinians are also being overlooked and humiliated through delusional and hollow plans for their forceful settlement somewhere else. One of such plans is the Middle East Riviera which proposed to settle all the Palestinians in the neighbouring areas which are already bearing a huge burden of refugees. Instead of their rehabilitation the delusional plans are being made to make their home as world trade hub following their resettlement. Debates went on but concluded without any result leaving the destiny of millions of Palestinians to brutality and suffering.

In short, the plight of Palestinian is collectively overlooked by the world leaders, institutions and historic international laws.

DATE: __/__/__

The largest humanitarian and social crisis and the normalization of brutality even could not awaken the world conscience. Therefore, the world is deliberately turning a blind eye towards the suffering of Palestinians.
