den to the ~~causing in the~~ ~~Grammar mistake~~ society. Justice is ~~defines~~ ~~as~~, the rights of innocents and the victims who faced different kinds of incidents in the society. There's law for the protection of the rights of the humans beings but at the same ways there's ~~loop~~ holes in the laws that result for the injustice. Delays in the justice lead to widespread injustice largely due to the overburdened courts, inefficient investigation systems, corruption and favouritism of police and judiciary and the weak prosecution system.

~~Must work on your language~~ These ~~causes~~ ~~lead to~~ the drastic consequences like loss of trust on the Police and Judiciary department, denial of fundamental rights of human beings, encouragement of crimes and corruption, and failure of laws.

However, these causes present and not addressed properly Pakistan can not make progress at all.

Before addressing the causes of the injustice, the importance of justice in the society should be explained. In any society the main reason for the disturbance is crimes. Governments make rules for the societies for the welfare of the peace. When people hold justice, the environment remain claim. Justice can make an offenders to normal person. If a person commit crime and punished harshly then he will be carefull in the future. When people obey the rules set by the government there will be no sign for the injustice. If the justice is absent from the society then it will create different kinds of problems. people get frustrated and commit various crimes, which destroyed the peace of any society. When a victim did not attain the justice then the offender get confidence and continued to presude the

Crimes. The structure of the society  
distracted badly. In this the  
rules are very necessary for  
the country progress.

~~You don't have any ideas  
regarding argumentation. Must  
work on it~~

~~There are many causes for the  
delays in justice. Firstly, over courts  
are overburdened. There are many  
cases remain unheard from years.~~

~~According to a report the cases of  
hearing remain stucked for more  
than 10 years and the case hiner  
visted the court for thousand  
times. The reason for the  
overburdening is due to lack of  
efficient judges and the numbers  
of court. The senior judges did  
not free the space the younger  
ones and the court remain  
blind with their inefficient skills.~~

~~Whenever a murder case is  
filled against the offender, he  
remain claim and peaceful because  
he knows that it remain stuck  
for the years and he will~~

run from the jail and no one could do anything. The victim get tollled by media and the other people of the society. In this result the victim try to step back and resticated the case.

Secondly the poor investigation system of police lead to injustice with the victim. There are not such helpfull methods for the investigation. The offender resin the every sign of his crime until the start of the investigation of the police. The police department did not know the real techniques which are usefull for the investigation. They heir the private investigator for the crime investigation, and in this duration the offender destroy the every sign and proof of his crime. There's no such investigation system for the case of rape.

The police tortured the victim instead of the offender. Their investigation

method contain tortured punishment. In resent days when a police man was on duty and searching for the theft beat badly to the innocent young labour boy, because he doubted that that person is involved in those robbery case.

So the investigation method is redidicous of our police department.

Thirdly the pathetic prosecution method for the investigation.

The old trained prosecutor use the old and unbalanced techniques for the prosecution. The victim mentally tortured in the prosecution method. The institutes for the prosecution is so soficated that the person can not live there for more than one day. There are many loopholes in prosecution institutes.

The prosecutor often favour the criminal for the sake of money. There's no proper training provided to the prosecutors. As a

the victim face injustice in his case.

The cause of delays in justice give the harsh consequence.

Firstly when people did not get justice from the police their trust on them get lost. Whenever an incident occurs people did not inform the police immediately because they know that there's no advantage of this attack at all. This lead to the more crimes in the society.

The criminal got confidence and for the next time commit crime with more efficiency. The rights of the people for the justice replenished. People remain silent on that also, which cause of bundles of crime in the society. The rate of corruption also increased.

The white collar criminals offer bribe to the police and get buried off from the case easily.

Thus the police department got

Corrupted and neglect the justice. The role of police in the justice is very crucial. Police department is the first point for the justice system. When two groups get fired at each other than in this situation the police did clam them and solve the problem for the controversy.

The minors crimes did not need court for the solution. Police department could solve the minor problems easily. But there are many problems in our police departments. The corruption is common problem. The more corrupted department of, Pakistan is police department. For the sake of money they sold their faith. People did not believe on them. They did not kept any hope for justice from them. The main reason for the corruption is the bad training for the service. There is no proper training systems.

For our police department so they use the vanished ~~tortured~~ tortured investigation method. They beat the accused person with belts, sticks and with the back sides of the guns. They have no proper method to collect the evidence for the investigation. Because they did not use the modern technological based methods for this purpose. so the police department have many loopholes which lead to injustice.

The judiciary department is the guardian of the human rights. When the police department get failed in the protection of the rights they fetched the case in the court so that the rules got preached. But our courts are not very efficient in that case. There are many cases remain unheard for the years. The reason for this is the

less numbers of court and untrained and unskilled judges. There's no proper accountability. The judges bury off the ~~the~~ most dangerous criminals just for the sake of money. Some judges and lawyers protest against the injustice but they face many problems like transform and end of job.

There are many reforms and solutions for these ~~holes~~ loop holes.

Police department should provided with the proper training, for the investigation, prosecution and for the protection of the citizens.

Their selection should be merit based so that the eligible and skilled person get the opportunity for the service. The judges should know the case management. It can be happen only when they remain stress free.

For this stance there should be more recruitment for the

Judges so that the hearing of cases could be done properly. The strict timeliness are necessary for the courts. The cases should be closed with efficiency in proper given time. For the investigation purpose technological method should be introduced. The digital record for the criminals can only happen with the proper digital app, in which all the record of the criminals of their previous crimes remain safe. In case of rape, murder, and harassment police should use the method like, Finger prints, DNA analysis, CCTVs, and the data analysis. These techniques help in the proper investigation for the case.

The awareness is very necessary tool in this reform. There should be proper rehabilitation centers for the awareness conductance.

seminars on the effects of injustice in the society should be insured so that the society remain free from the injustice.

In concluding, the justice buried when the injustice get certificate for the roaming.

Absence of Justice create different problems in society. The unheard cases, poor investigation methods, corrupted departments and false prosecution get result of human rights decline, increase the confidence of criminals, more corruption with deep roots and lost of trust of people on the police department.

For the betterness the police reforms and judiciary reform should need corrections like strict timeliness for the case hearing, merit based recruitment for the police department, public awareness and strong investigation methods for the prosecution. Unless these instructions got followed the

shade of injustice remain there  
and will left the scares on  
the country progress.
