You have understood the topic at all. You are supposed to provide arguments about how this is an alarming issue.

Introduction

India and Pakistan ^{amongst} the distribution of water is very complex issues because water is a very important part of every state or human being to spending their life easily without water impossible to spend their life. ~~keeping these~~ problem in view, they were develop a treaty is called ~~that~~, IWT was create in 1960 under the world bank and to gave responsibility for ^{IRSA to} water distribution among the state. In this treaty ^{was} water distribution method as follow: ~~the~~ ~~Eastern~~ western three rivers are part of Pakistan and eastern three rivers are part of Indian state. Similarly, India and Pakistan were faced more challenges for distribution of water equally, because water is the backbone of every state's economy growth. Furthermore, IWT is very important and it plays an essential role to distribute water equally among the

— 8.5

State. In this treaty was binding both state for equally distribution of water because it was signs both state approval therefore is called bilateral treaty, it can not suspend unilaterally. In recent ⁽²⁰²⁵⁾ war India was blamed on Pakistan for Palgam attack and gave menace for suspension of Indus water treaty. Therefore, water is

very important for both state. especially for Pakistan economic growth because its protection ~~for~~ to identify core or sustainable

solution for both state.
