

## Question no 2

**Gaza Peace Plan: A pause in violation of International law and humanitarian Crisis:**

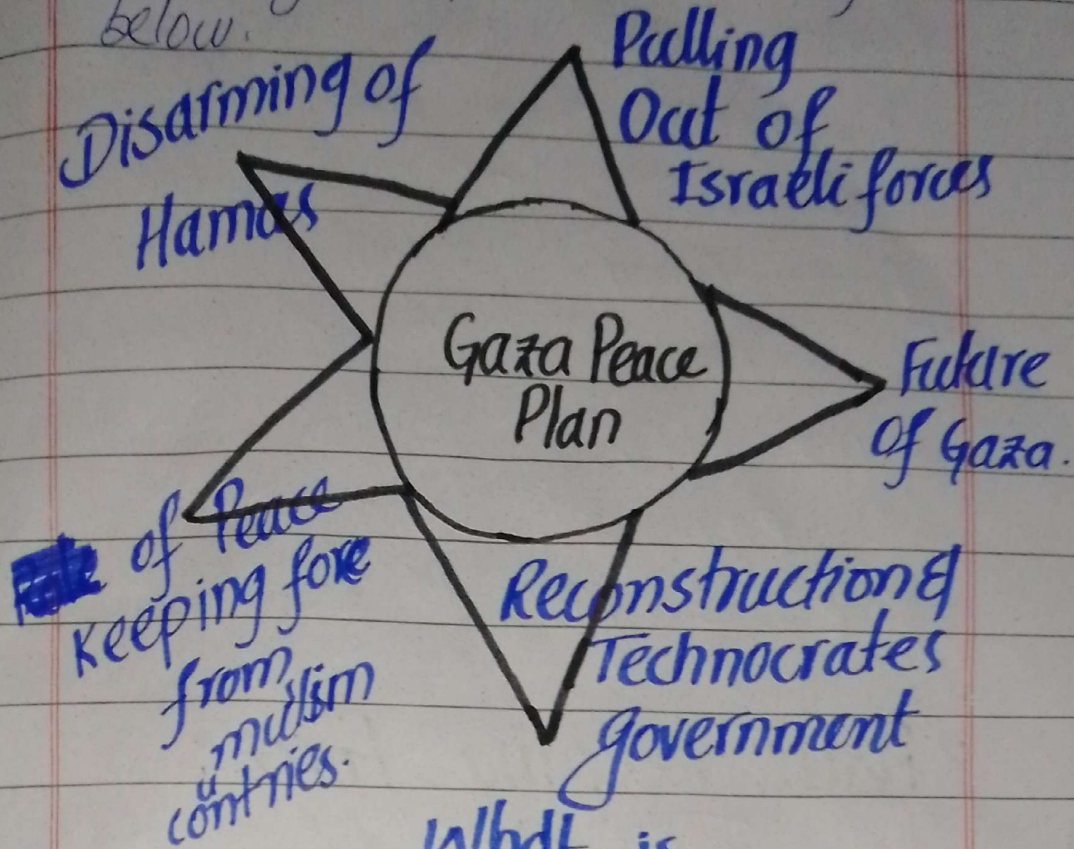

The outstanding issues of twenty first century have deep rooted causes in twenty centuries <sup>which was</sup> endowed with numerous territorial issues and world wars. The Palestine conflict has also consequences of world wars and malicious divide and rule policies. From 1948 to 2025, this part of land has faced international law violations and humanitarian crisis and waiting for peaceful resolution and two-state solution. The situation has worsen after 2022. Israel has badly torn the land of Palestine and turn it inhabitable. Before, elections

in United States of America, Trump repeatedly claim to end Israel-genocide in Gaza and jot down a peace treaty. But in reality, Trump remains unable to fully demark the peace plan and has clear tilt to Israel. In this regard, He announced ceasefire in October and declare to draw a Gaza Peace Plan. During UNGA meeting, President Trump has discussed major features of Gaza Peace Plan. But After, negotiation with Netanyahu, Gaza Peace Plan has been announced but It is being altered. Despite of change, in order to stop Genocide, Muslims endorsed it. This plan contains concerns of Muslim Peace, Pulling out of Israeli forces and future Gaza which

is being explained critically below.

## Gaza Peace Plan :

Gaza Peace Plan is an effort to stop genocide of Israeli forces drafted by USA President Trump. who has clear tilt ~~against~~ towards Israel.

## Pulling-Out of Military Forces of Israel :

Pulling out of Israeli forces will be done in three steps.

1 Firstly 45% of the troops will be wiped out.

2 Second step will be removal of 55% of Israeli troops from Gaza.

3 Almost 15% of International peace keeping forces would be employed and their role is yet to be decided.

## 1 Peace Keeping Force :

There would be employed Peace Keeping force in Gaza strip which would be comprised of muslims armies and international bodies. Netanyahu has declared the Peace keeping forces could not be picked from Turkiga, Iran. It can be picked from Pakistan, Jordan, Egypt etc.

But what would be the role and domain of

peace keeping is yet to define.

1 Would Peace keeping force has policing powers only or military powers too?

1 ~~if~~ who would decide if violation from either side?

1 Would Peace keeping force stop to Israel forces to violation?

1 Would muslim forces to dis arm Hamas?

The answers of the above question will tell weight of Peace keeping force in attaining peace.

1 Hamas Dis-arming:

According to Plan, Hamas will dis-arm and vacated from Gaza. would it be done effectively; likely not.

During ceasefire deal, Hamas accepted deal in totality accept disarming. Does according to international law, Hamas has not right of self defense (Art. 5)?

This represents the fragility of the plan.

## Reconstruction and humanitarian Aid in Gaza:

Almost 90% of buildings has been totally destroyed Gaza and 10% of the houses are severely damaged. People are

firstly residing in tenets.

Almost 70,000 people have been from, 2022-25 and 150,000 are severely damaged and injured containing 20,000 children and 30,000 women. According to Amnesty International.

## Future of Gaza:

who would govern Gaza? A technocrate government which would be picked from west-Bank and Israel according to plan. Probably, it would be hand Picked. Trump and Netanyahu wanted to adjust Gazans in other muslim countries like Jordan Egypt etc but Hamas is immenently providing resistance.

## Gaza Peace Plan and Two-State Solution:

Practically, there does not written anything about two state solution. President Trump has repeatedly avoided the answer of two-state solution in interviews. Netanyahu has clearly said that two state solate solution is NOT feasible. He has made Israel

as an apartheid ~~state~~ state. Netanyahu repeatedly told about creating Great Israeli State. With the above fragile <sup>and</sup> pillars <sup>biased</sup> of Gaza Peace, it is not possible the two state solution of Palestine-Israel conflict. Unless international law is not practically applied, the Two state solution is not likely imminent.

## Peace keeping force and Pakistan?

The leaders of muslim worlds and PM and Foreign ministers still agreed to Gaza Peace Plan if it implemented in true sense. But the sending of troops by Pakistan yet not announced. ~~Yet~~ However, Secretary state of US, Marco Rubio, has said, Pakistan is ready to send his troops.

It is very critical point for Pakistan and muslim world. Foreign minister of Pakistan has said, peace keeping is not responsibility of us. Keeping view fragile and biased condition discussed in Gaza Peace, it seems unlikely that muslims countries would send their troops. Untill, clear and lucid explanation about the role of Peace keeping forces is not announced and Plan is not implemented, in true sense, the sending troops can be prove chaos.

### **Conclusion:**

To sum up, Gaz Peace Plan with biased and tilted favour of Israel, is seeming a Pause in genocide. Untill, international law is not proply endorsed and fair

deal is not presented,  
the conflict can resume any-  
time in future.
