Pak-Afghan Relation tense,
major Factor and improvement

Introduction:- Pak-Afghan relation has been historic, deep and strategic. Pakistan have good relation with Afghan when a government in Afghanistan are whose which are also support by Pakistan. As a religious similarity Pakistan always helped Afghan in all warfare and also accept its Refuges with great heart. But with Indian, Afghan used as proxy war against Pakistan.

Causes of Tense Relation

i) Durand Line: Before independence of Pakistan British India government signed a border line between subcontinent and Afghanistan. This is almost 2600 km border line. But after independence Afghanistan does not recognize the border line. In the border region almost Pushtun people lived across the border. Pakistan always denied the Afghan claim and claimed to accept this.

ii) Afghan Land, is home for terrorist group

All terrorist group like TTP, ISIK, BLA and Majeed Baza Brigade are operated

through Afghanistan After Taliban
took over of government,
the terrorist activities
were increased in
Pakistan. When USA
leave Afghan, almost
7 billion arms left behind.
In which 25% given to
BLA for terrorist activities
They all operate through this

iii) Taliban orthodox Islamic ideology

The Taliban orthodox Islamic
ideology is prevailed through
younger. They represented a
conservative and almost wrong
ideology of Islamic to
younger for preaching
of Islamic. They trained
these younger to attack
those muslim which are
practically weak in Islamic
preaching.

iv) Indian Sponsored terrorist

Pakistan always talked on International media and gave evidence that India through Afghan soil spread terrorism in Pakistan. Afghan which is economically weaker India gave money and used against Pakistan.

v) Lack of Coordination

With any terrorist attack, we moved toward USA and Afghan moved to other countries. The bigger player not interested to resolve the issue rather than involved to escalate it by background game playing.

Recommendation

Need to negotiation through
diplomacy

Not dependent on major
player

Enhance security at borders
level and trade to
reduce tension when both
are independent on trade

Civilian leader should have
more power to resolve
the conflict

Engaged through CPEC for
improvement.

Through this Pakistan joined **CENTO** and **CENTO** for safety due to indian aggression. It is also gained economic aid to overcome initial difficulties. But a turn came in **1965** was when **USA** denied to help in the war. Then Pakistan moved toward China which also helped in all crises of Pakistan.

i) Recodek Project

Pakistan have rare earth minerals specially in KPK and Balochistan. It signed Recodek project with USA in 500 million dollar project. It has a big investment which boost Pakistan economy.

which enhanced the economic condition of Pakistan. CPEC produces almost 6 lack plus jobs for Pakistani.

Balanced Relation

Pakistan can easily balanced the both states relation. In cold war era, India joined USSR and USA both and remained neutral. But Pakistan joined USA and not joined USSR because we need economic aid it our necessity.

Pakistan takes benefits from both ~~set~~ States with Recode k it enhance mineral through use of CPEC projects.

And with CPEC it
used the extract mineral
for technological advancement
with China. Because it
used electronic devices and
technologically developed country is
world leader.

Neutral Policy: Learn from
history experienced, we are
reached at that point
that always choose those
way that are benefited
for our country. It is
best diplomacy in the world
to follow this Pakistan can
easily developed that independence
from IMF and World Bank.

Conclusion: Opportunities are not
come again and again. So,
Take benefit from these
countries and developed
yourself as a great nation
and Muslim leader nation.
