Question No- 5

Answer

1) Introduction

Ethnocentrism is the believe of one or group who consider their culture superior to other culture while de-centrism is opposite to it. Global media, consumer culture and local identity politics produced simultaneous tendencies toward both in contemporary societies in Pakistani youth.

2) Definition and Concept of Ethnocentrism

Ethno means Ethnic

center means focus on one

own cultures. Hence it means
ethnic center → focus on one's
ethnicity and culture.

It can be defined as
"Believing one's culture is
superior to other culture and
compared other culture with
own standard culture"

It simply ~~a belief~~ means that
one as a group of people consider
their own culture superior to
other and consider their own
culture a standard

3) The Concept of Xenocen- -trism

Xeno mean other, center
mean focus hence focus on
other culture

It can be defined as
"Believing other's culture is
superior to one's culture"

3

4) Critical Analysis of Global media, Consumer Culture and local Identity Politics Promote both in Pakistani Youth

① Global media promote ethnocentrism as well as xenocentrism in Pakistan. But normally global media promote xenocentrism in different forms in Pakistani youth. For example Hollywood movies, food (pizza), cloths such pants and so on. Global media also focus on ethnocentrism but it is less. For example cultural enriching programs, protection to the loss culture programs and so on.

② Consumer Culture also promote promote xenocentrism

for example different advertisements which promote foreign culture. In Pakistani youth today focus on Fast foods pizza (Italy Origin), ^{over} ~~over~~ tradition food.

③ Local Identity politics normally focus on more on ethnocentrism and less xenocentrism. Local politics and politicians are traditionalist and hence ethnocentric. For example the initiation of motor cycle in Punjab criticised by local religious political groups.

5) Two Educational Institutional Steps to Reduce Inter-ethnic Hostility

5.1 Inter-Cultural Subject and Curriculum in Educational Institution

By introducing inter-cultural as a subject in education institution will understand Pakistani youth that different ethnic have culture as us. moreover, it increases their tolerance and critical thinking in broad sense that reduced inter-ethnic hostility.

5.2 Structured Intergroup and Interculture Programms In Educational Institution

Intergroup contacts programs among students can create harmonize inter-ethnic hostility. Through this they come to the reality that they are same human as we are. In Pakistan, we should promote these programs among Pashtun- Punjabi- Baloch and Sindhi.

6) Conclusion

6

To conclude, global media, consumer culture and local political slogan promote ethnocentrism as well as xenocentrism in Pakistan youth. It can reduced inter-ethnic hostility by taking concrete steps.

Question No - 3

Answer

1) Introduction

Federalism, бирadari network and modern economic capital interact to produce entrenched inequality in Pakistan. In Pakistan only 22 family hold 90% of wealth, are federal now are politician. Modern economic promote capitalism promoting rich to richer and poor to poorest.

Quaid said about them
"I have got seven coin in my pocket"

2) How Biradari network Promote Inequality?

Kinship based network provide access to jobs, credit and political support. Hence it promotes closed social mobility and favouring those within network. For example, in Pakistan, people votes on biradari, relative based ancestry base not on qualification based. Hence it promote few people who have influence and in this way promote inequality.

3) How Does Feudalism Promote Inequality in Pakistan According to the world

8

Book report 2025, 1.7 ~~million~~
million people are in bonded
labouring, out 1.7, 1.2 ~~million~~ million
in Sindh.

Sayed in (1968) wrote that
Mian Iftakhar, a refugees
rehabilitation minister resigned
due to feudal influence in Punjab
for non-distribution of land.

→ These feudal influence they presents
for voting, preventing from education
which promote inequality in Pakistan.

3) How Does Modern Economic Promoting In Equality in Pakistan:

As feudal lords have wealth
they open industries and companies
which is based on Capitalism
exploit labour and gained (capitalist)
more and more wealth. Hence
Capitalism based economy in

9

Pakistan promote inequality.

Due to this reason, According to IMF report 2025, 2600 people live in Pakistan below poverty line.

4) Recommended Policy Measures to Reduce Structural Inequality in Pakistan

1) Land Reform in Pakistan Can Reduce Structural Inequality in Pakistan

Land reforms in true spirit reduce structural inequality. Three reforms in Pakistan for land in 1959, 1972 and 1977 come. In first 35% land taken, in second 0.1 million acres but it failed faild.

India, Bangladesh ended feudalism but in Pakistan still exist. It must

abolished to remove structural inequality.

2) A Socialist System in Pakistan Can Reduce Structural Inequality

Socialism is intermediate between Capitalism and Communism. Islam promote a Socialist state. It did not mean that no private property. In socialism private property exist but do not used to oppress and suppressed other people. China is rising super power due to its socialist view. Hence it should be bring to end structural inequality in Pakistan.

3) Access to Modern Education Can Curb Structural Inequality in Pakistan

12

Literacy rate currently in Pakistan is 60% lowest in region moreover ~~the~~ outdated Syllabus is another problem. Literacy should be promoted and Scientific culture must be promoted. They can reduce poverty.

Conclusion

Federalism, Bureaucracy and Capitalist economy in Pakistan reduced equality promoted inequality. It can be reduced by taking some practical steps
