2.2. Lacks the financial resources.

2.3. Discrimination

2.4. Cognitive development

2.5. Corruption

2.6. Crimes

3. Healthcare disparities (4) Conclusion

Yes, poverty is widely considered a significant contributing factor to a range of social problems, including crime, poor health, family instability. Poverty is a state or condition in which an individual lacks the financial resources and essentials for a basic standard of living. Poverty can have diverse environmental, legal, social, economic and political causes and effect. It is the root cause of all socio-economic problems. When a person could not get money, he may involve in many social evils like robbery, snatching things from others and he also faces many economic problems. He can not provide basic facilities

to his family. Due to poverty, his social environment become spoil. No one gives him respect, if he belongs to poor family. He could blame for anything which he did not act. So poor man could not get justice in a society. As a result, the poor people hates elite class. This classification in our society leads to many social problems.

poverty can limit access to education and employment opportunities.

A poor man has no money to educate his children, he can not afford their uniforms, books, stationery etc. If his child gets admission in a government school, Although^{she} he gets free books but he/she needs notebooks, pencils, rulers, sharpeners to study properly. He/she has to buy uniform. But his/her parents belongs to poor family, so they can not afford their requirement of education. So the child left behind and as a result, he/she could not get degree of qualification and remained unemployed. Because he/she could not get adequate education to fulfil job's requirements.

A poor man lacks the financial resources. As he could not get education. So he has low opportunities to gain enough income. He gets some labour work. Unfortunately, a labourer does more work but he is rewarded least in our country. He works from morning to evening. At the end of the day, he gets some money that can not fulfill his family's basic needs. He has large family. But his financial resources could not meet his family desires.

Poverty is also the cause of discrimination. A poor man discriminates in every walk of life. People belong to high families have discriminative attitude towards poor families. For example, a maid/servant in a high family can not get permission to eat with them, to sleep in their bedrooms. Even, the servants has to reside in their servant quarters where they live normal life. They sleep on an ordinary bed and under a fan, But their owner sleeps in an A.C. room, where all the worldly luxuries available in it. So this creates a discriminative environment. It leads to many social problem like hatred emotions, inequalities, injustice etc.

poverty also contributes in lack of cognitive development. As children belongs to poor family has not enough food to grow. His/her parents could not afford extra nutritious foods that their child needs. They could not provide enough foods to their children. poor food results many deficiencies in children. Because a famous proverb is

"A healthy Body has a healthy mind." So a poor child could not develop because of insufficient food.

poverty leads to corruption. A poor man fails to fulfill his family needs. so he adopts the ways that are illegal. Unfair means leads to corruption. In our country, this is a reality of every department to use unfair means of income. Because insufficient source of income and increasing inflation rate leads to corruption. A poor man is compelled to use Unfair means to earn more money. Every department in our country indulges in this curse. we can not progress until this evil can be rooted from everywhere.

poverty leads to crimes. When a person can not fulfill the requirements of his family. He involves many criminal activities. He snatches mobiles, Ladies purses etc. He involves in robbery cases.

This creates disorder in a society. crimes in Pakistan include murder, rape, Kidnapping, armed robbery and other serious crimes.

It also includes organized crime, such as drug trafficking and assassination, land grabbing and arms smuggling.

Types of crime	2022	2023
Mobile snatching	28561	27984
Car snatching	161	262
Car theft	2105	2043
Bike snatching	4970	7265
Bike theft	51901	51873

Health care disparities are differences in health care between groups of people. These differences can include access to care, health insurance, and quality of care. Health disparities can also refer to differences in health outcomes, such as life expectancy and mortality. Health disparities are caused by broader social and economic inequities. Healthcare disparities in poverty refer to significant differences in access to

to quality healthcare experienced by individuals living in poverty compared to those with higher incomes. People in poverty may struggle to access healthcare due to high out-of-pocket costs, limited availability of nearby healthcare providers, and lack of transportation to reach necessary appointments. Individuals from lower socioeconomic backgrounds may face implicit-bias in health care settings, impacting the quality of care received.

To sum up the above discussion, Government should take necessary steps to overcome this dilemma of a society. It can be overcome through a combination of policy changes, economic growth and access to basic needs. Education is one of the best solutions to poverty. To ensure basic health care facilities is main responsibility of the Government. To steer Pakistan on the path of sustained and broad-based economic growth and to create jobs and reduce poverty, Pakistan requires a prolonged period of macroeconomic

stability, financial discipline and consistently transparent policies that place poverty reduction at the centre of the country's overall policy. Some policy solutions to poverty include sustaining economic growth, increasing employment opportunities, maintaining minimum wage rate and the re-introduction of progressive taxes. We should also help the needy and poor people in our society. We should donate groceries to ~~reputable~~ ^{chari} local food banks. To distribute meal kits to the local homeless community.
