In the book, Why Nations fail. It was pointed that U.S.A and Mexico. both have same geo-stragic location and Unrelated to the context of the topic. This does not cover transferoments the fitness sustainable growth. Mexico is struggling to deviap itself. The Primary reason why Mexico is struggling is poor goverance, because of it, it lags behind it's neginbours. In the same way Pakistan, china and India, gained indepence in same time period and are neighbours. India and china are global Super economic powers, while Pakistan is Struggling. Pakistan is facing economic problems since it's ince Ption. Many believe that Pakistan cannot Surrive without Foreign aid. Pakistan Can Surrive without external Support and build a self-sustranable economy. If Utilizes it's economoic resources correctly Pakistan Can acheive sustainable economic growth, since it has an important geo - Strageic location, abduant natural and roboustic young population- However the reason it is struggling has poor goverance, miss mang ment of it's resources and Law and order issues. However the government taking Concrete measures Such as

	of an important project has given impression
	to International investers that Pakistan is
	not a good place to invest. Similarly
	the government tried to extract coal from
	thar, however the private sector who wanted
	to Invest had to face Serious harresment
_	from governord and corruption against There
	-fore Pakidan has miss-handled it's resources
_	as a result no one wants to invest
	Another Issue which hampers Pakistan From
	acheiving Self-sustainable economy is pers
_	law and order. Pakistan has to face
	effect from Afgunistan -Takban war. As
	a result there are high number of terro
	-rism cases in Palsostan. As per Institution
	of economy and peace, Pakistan's terrorism
	index was 7.92 out of 10, in 2022.
	Therefore due to high number of terrorism
	many foreginer deter from investing
	in Pakistan. As per world economic foroun
	Pakistan in 2022 received 1.3 billion dollars
	as foreign investment, while India Had received
	more than 49 billion dollars in foreign
	investment. Hence forth terrorism deters
	foreign investment, which deters the
	economy from acheiring 5e15-sustainbillity.
	1 (1/2) (2)
	Likewise another issue which hampers

	Pakistan's economy from acheiring self-sustain
	-ability is poor judical system Pakiston's
	judical system has failed to perform and
	after deters foreign investors. Ammensty
	International ranked Pakeran's judical system
_	at 164 out of 180 to 2023 - Simillarly
	as per Ministry of law and justice, Pakistan
	Case was 8.6 to, more than 2.17 million
	Cases were pending before various courts.
	Hence Forth due to poor judical personnerse
	many foreign investors shy away from
	investing in Pakiston As they feel
	incase of a dispute, Pakistan's judical
	System is going to take ages to resolve
	the issues.
	Idab charata shelded these in and
	Simillarly another issue which hampers
	Pakistan from acheiving Self-Suctionante
	economy is political Instability. Pakistan
_	is facing Political issues, since it's
	birth, it has weak democratic roots.
	The economist intelligence index Of 2023.
	placed Pakistan's democracy at 8.0 index
	terming it as fragil. Due to fragil democr
	-acy, Pakiston is facing political instability
	because of foreign investors are relecutant to
	invest in Pakistan, as they feel with
	abrupt changes in government, economic
	policies will Change. Which is going

	Date:

	$\alpha$		

Considrable efforts to revue terrorism cares he and improve law and order. Many Kinetic Operations have taken against berrorist son -curties. The Federal government launched operation Istahma - e Pakiston in which all formed organiz - ations were to be targeted. Simplify the government has start to build capacity of blity 1aw enforcement agencies to counter terrorism Therefore rate of terrorist attack has reduced and law and order has imporved Another effort through which Pakistan's economy is moving towards self-sustainability is better resource mangment. Pakistan has taken various essorts to improve manament of natural resources. Pakistan has created SIFC, through which it will mange and soil it's natural mineral resources Through SIFC, Pakistan aims to mange and Sell it's natural resources under one window: The goverment of Pakistan aims to bring 5 billion dollar investment through SIFC-Henceforth beller manament of resources can lead to self-sustainable economy. Simillarly in order to bring investments in countries, the government has revived judical system of Pakistan. Through 26th ammendment, the government of Pakistan has created Seperate constitutional Courts Page No. **DOUBLE A** 

	and made changes arbitranation method. Many
	Cases which are of political and constitutional
	in nature will go to constitutional Court.
	This will automatically reduce the load on
	ordinary courts. Similarly through arbitration
	method the government will first try to
	settle issue through a arbitration instead
	of going to courts directly. This is going
	to solve problems quickly. Henceforth the
	efforts to improve judical system is going
	to help build Self-sustainable economy.
	and a second day down during making with the
	Likewice democracy in Pakistan is getting
	mature and stranger day by day. First
/	time in 202, a democrated elected governent
	full filled it's tenure, and so on 14 years have
	pursed that in Pakistan democratic elected govern
	-ents have fullsilled their tenures Although
	there are many shor commings in it but
	with passage of time, it will evolve.
	5 billion dollar investment throughout the
	Lastly the government of Pakistan has
	created a road map through which it
	aims to reduce it's external crept
	Through uraan the government of
	Pakistan aims to reduce external
	debt. As through the plan government
	arms to bring high investment through
	projecting Pakistan as investment safe

Day:
heaven and atilizing talent of it's youth-
Through UAaan, the government aims to reduce
Imports and surrive on it's own resources.
Through atilizing it's soung, the government
aims to return back external loan.
Herceforth Pakistan can acheive self-sustainable
economy since it has potential and resources.
However miss mangment and internal issues have
plaughed the Country . However considerable effort
have been made to resolve these issues. Th
cerfore Pakiston can acheive Self-Sustainable
economy.
a de la companya de
