

Question No.4:-

(Correction)

- v) All kinds of stationeries are sold here.
- vi) There has been always a fight between devil and divine.
- vii) The mother was searching herself in her young daughters.
- i) I shall be completing this project by this time tomorrow.
- viii) A little elegance is left in that arrogant youth.

Question No.5:- (B)

- ii) with iii) on iv) over v) by
- vi) to

A) (Punctuation)

A boy was gathering berries from a hedge, when his hand was stung by a nettle smarting with the pain. He ran to tell his mother and said to her between his sobs, "I only touched it ever so lightly mother." "That is why you got stung

my son," said she, "if you have grasped it firmly, it would not have hurt you in the least."

Question No. 7:-

(Translation)

Students think that they will become toppers by just looking at covers of the book or keeping notes under the cushion at night who are preparing for competitive examinations. These are the people, who find nepotism in their prayers also, even after two days of preparation. In fact, there is no magic-bullet or shortcut to success. Extraordinary hard-work is required for extraordinary results. So, next time, when you think, "should study or not", while holding a cup of tea, keep remembering that ^{success} hardwork is attained by hardwork, not fun.

Question No. 3:-

(1)

Renewable energy systems are not immune to pollution during their operational phase. The intermittent nature of solar and wind power necessitates backup from fossil fuel plants or reliance on battery storage, the latter of which poses its own environmental challenges.

(2)

Electric vehicles are lauded for their environmental friendly image but their production results in significant pollution. It causes habitat destruction, soil contamination, and high water usage, in the regions already facing environmental stress.

(3)

Recycling renewable energy systems often resulting in accumulation of toxic waste. With a robust infrastructure for managing this influx of discarded materials, the green promise of renewable energy begins to tarnish.

(4)

Renewable energy systems are not immune to pollution during their operational phase. The intermittent nature of solar and wind power backup from fossil fuels or reliance on battery storage, the latter of which it poses its own environmental challenges.

(5)

Renewable energy is not the silver bullet for saving the planet. It is a complex, imperfect solution that requires careful management. Only by acknowledging its limitations can we hope to harness its potential responsibly.

Question No. 2:-

Title:- Irresponsibility of the Politicians

The politicians have an unparalleled aptitude. (When they are) When they are inquired, they only make false and big statements and promises, but their promises are only rhetoric. It is a very rare talent, which is used by politicians. Before and after elections, they show a very different behaviour. People entertain due to their multi-faceted behaviour. They are only self-preserving, and behave like a snake. Their instant changing behaviour is not less than an Olympian. The politics is now less-serving to the population.

Total words = 301

Precis words = 82
