## English Preci & Composition

Qno 2:- Make a Preci of the following passage and suggest a suitable title

### The Art of Theater in Politics

Politicians, one cannot help but marvel at them. They are masters in giving complex answers even asked straight questions. When asked simple questions they replied in a long complicated phrase that sounds cool, but lack of substances. Before election, they make grand promises but after election their promises shatter like autumn leaves. The lack of follow-through shatter people trust but politicians are more interested in maintaining their

Day: \_\_\_\_\_

Date: \_\_\_\_\_

Similarly, wind turbines demand vast quantities of steel, concrete and rare earth magnet. Manufacturing these components not only generate significant Green house gases but also disturb ecosystem & exploits finite resources.

### (ii) Answer

Electric vehicles often have environmental friendly image but his production pose significant pollution. ~~The~~ manufacturing process lithium-ion batteries, requires extensive mining of materials like lithium, cobalt and nickle. This cause habitat destruction, soil contamination and high water usage. Moreover, EVs comes from fossi fuels, there environmental benefits dismished. ~~So~~ While Eves have potential, but current lifestyle emissions suggest that they are not environment friendly completely.

### (iii) Answer

The lifespans of Renewable Energy systems is finite and there are many challenge associated with the

Day: \_\_\_\_\_

Date: \_\_\_\_\_

disposal of Renewable energy system like solar and wind turbines typically ranging from 20 to 30 years. As they reach the end of their utility the question of disposal become critical because recycling these components is neither straightforward nor widely practical resulting in the accumulation of toxic wastes, the green promise of Renewable energy tarnish.

### (iv) Answer

This Article suggest that renewable energy is not entirely pollution free. During its operational phase because solar panels requires rare elements like cadmium and tellurium, similarly ~~demer~~ Wind turbines demand vast quantities of steel, concrete and rare Earth magnets. Manufacturing these components generate significant threat Green House gas emission, disrupt ecosystem and damage finite resources and these Renewable energy systems require vast expanses of land, potentially displacing local wild ~~life~~ life and communities.

Forests are often clear to accommodate these installations.

### (v) Answer

This Article addressing the limitations of Renewable energy by reducing consumptions, improving energy efficiency and diversifying the energy mix. It requires careful management and realistic ~~apart~~ expectations. By Acknowledging its limitations we can hope to harness its potential responsibly.

Qno4:- Correct any five of the following sentences

(i)

I will complete this project by this tomorrow.

(ii)

If I knew the answers, I would pass the examination.

(iv)

Looking through the view-finder, I saw some strangers standing at the door.

(v)

All kind of stationaries are sold here.

(vi)

There has always been a fight between the devil and the divine.

## Q no 5

A. Punctuate the following passage

A boy was gathering berries, from a hedge, when his hands was stung by a nettle. Smarting with the pain, He ran to tell his mother, and said to her, Between his sobs, "I only touched it ever so lightly"; mother, "that is why, you ~~stare~~ got stung my son," said she, "if you grasped it firmly, it would not have hurt you in the least."

B. Re-write the following sentence (only Five) after filling the blanks with appropriate prepositions.

ii. I am broke with him because he is

Day: \_\_\_\_\_

- selfish friend.
- v- The poor live at their honest wages.
- vi The thief did not swear on God.
- vii. you have no right to jeer with the beggar.
- viii. He is leaning against the wall as he is not feeling well.

## Q no 7

There are some students who are preparing for Competitive examination ~~they~~ think that they just by staring books <sup>cores</sup> or keeping notes <sup>under</sup> ~~below~~ their pillow at night, they will be toppers. These are the people who find ~~that~~ intercession in prayers. After two days of preparations the fact is that, no one has a "magic stick" nor any "shortcut" for success. If you want extraordinary result, you also need extraordinary hardwork. So, when the next time you ~~read~~ are holding cup of tea and wondering

Day: \_\_\_\_\_

Date: \_\_\_\_\_

"Should I study or not" remember that success does not come by playing. it comes by hardwork!

## Pair of Words.

(iii) **Monitor** AI system monitor  
all human activities

**Mentor** My Mentor is  
malaiika Ahsan in  
CSS journey.

(vii) **beneficient** Reducing fossels  
fuels and shifting on  
Renewable energy **beneficient** for us.  
**beneficial.**

Or Eating an apple a day  
is **beneficial** for our health.
