Date: _____

Day: _____

5) Circumstances in which haste decisions are appreciated.

5.1) In disaster management

5.2) when a country is attacked by enemy.

6) Conclusion

In 1970s, the hasty decision by the government of Pakistan to nationalize key industries led to widespread dissatisfaction. The nationalization of industries caused setbacks to the financial conditions of the country. The investments were moved abroad, weakening the economy. This experience highlights how impulsive decisions underscore the truth of the statement, "Haste makes waste". Taking hasty decisions lead to defeat, make enemies and lead to the fall of a person. A hasty decision may lead to injustice, cause crisis and hatred for the system. Besides, hasty decisions undermine regional cooperation and also cause humanitarian crises. However, if decisions are taken carefully, they would yield desired results. Careful decisions taken

Date: _____

Day: _____

Carefully make a person successful in his aim, and also uplift a nation and strengthen the defense capabilities of a nation.

There are some situations which need quick and hasty decision making policy, ~~the~~^{like,} disastrous situation and when a country is attacked by enemy. To sum up, hasty decisions lead to adverse consequences in

individual, society and regional level.

However, careful decisions making leads towards success. There are some situations which demands hasty decision making.

Hasty decisions can lead to adverse consequences. They may lead to failure and defeat.

When decisions are taken without the careful consideration, the long ~~term~~ term consequences may be ignored. They also lack foresight and a clear vision.

Date: _____

Day: _____

As a case in point, when Adolf Hitler took decision to invade Russia without adequate preparation for the harsh weather, led to the massive loss of Germany's Army. This impulsive decision exposed the Army of Germany to the harsh weather. It ~~led to~~ weakened the position of Germany in world war II. If Hitler had taken more careful decision, the outcome might have been different. Thus, hasty decisions lead to ~~the~~ disastrous consequences.

Besides, hasty decisions lead towards alienation of potential allies and create unnecessary enemies. When ~~lead~~ an individual act hastily, and take decision without the proper investigation, it brings resentment and opposition among those on which an individual depend. For example, the imprisonment

Date: _____

Day: _____

of Khushal Khan Khattak, a Pashto poet and warrior, by Emperor Aurangzeb, instigates resentment in Khushal Khan. He turned against the Mughal Empire and started fighting with them. This resentment of Khushal Khan weakened the control of Mughal on areas of Pashtun. This shows that hasty decisions of Aurangzeb turned his loyal against himself. Thus, taking hasty decision often often turn allies into enemies.

In addition, Hasty decisions can lead ~~to~~ an individual toward downfall and disgrace. When decisions are driven by arrogance or impulsiveness, they often result in consequences that harm the decision maker. For instances, Satan's hasty refusal to bow before Adam, driven by pride and defiance of

Date: _____

Day: _____

divine command, led to his expulsion from heaven. This not only cost him his status, but also became a symbol of eternal condemnation. It also reflects how an impulsive decision cause irrevocable loss. Thus, the decision of Satan's illustrates how haste, fueled by ego, can result in one's ultimate downfall.

Conclusively, impulsive and hasty decisions have diverse consequences on individual, societal and regional level. Hasty decisions often disgrace the decision maker and undermines the regional cooperation.

Hasty decisions also cause humanitarian crises. On contrary, careful decision making often leads toward success and play a great role in uplifting a nation. Careful decision making always yeild a great success. But ~~it~~ there are some situation which required quick and robust decision

The required impulsive decision
making like when a country
is hit by a disaster and
if it is attacked by an
enemy.
