- 5.4 Polishing their skills
- 5.5 Encouraging outdoor activities

6. Conclusion

- 6.1 Anger issues especially in modern era
- 6.2 Evolving dynamics
- 6.3 Challenges to address

INTRODUCTION :

Imagine a ten-year-old child stuck to screen for more than 8 hours continuously, exposed to fighting games, cyber-bullying, inappropriate vulgar videos. He suddenly turns to violent aggressive behaviour towards his immediate surroundings. This sounds strange yet quite natural because children are exposed to the world of technology where these behavioural patterns are observed in the modern world. The sudden or gradual changes unusual to a child or family in his emotional well-being, might lead to frustration, anxiety - at large to anger issues. Children are facing numerous problems due to the evolving busy family dynamics, peer pressure expectations, to compete in technological equipments and social gatherings. They need to be dealt consciously, that won't harm the emotional being of the children.

ate: _____

Studies have shown that globally about 40% of parents face difficulty to manage their children anger-related issues. This starkly reflects the dire need to address this challenge imposed due to the evolving technological influences, societal, academic and family dynamics.

BRAINSTORMING :

A child not embraced by village will burn down to feel its warmth.

1. Introd
