also boost up the industrial sectors.

Date: _____

The world's development would be two-fold or three-fold, as compare today's if women were not excluded from different sphere of life. The link between women participation in different domain and Progressive movement, after the era of enlightenment, has been observed. Later on, people deems women role crucial for political and economic progress. As women participation in economic sphere of life uplifts the economic growth. Similarly, it ~~also~~ has a capability to reduce the poverty ratio. Moreover, women political participation is crucial for the progressive moment because women leadership are more effective for averting existential threat to humanity. Adding to the same side of the debate, it also boost up the industrial sector. However, their exclusion severely impacts the political and economic progress: it

led by maintain ~~over~~ ... it tradition norm

Date: _____

scumbled^s the economic growth, ~~and~~ makes ineffective democratic governance and fuels the ratio of poverty. To dig out the ~~underli~~ responsible factors which excludes women, they are the emergence of far-right wing politicians, wrong religious interpretation and privileging patriarchal norms in a society. However, some strong and effective ~~strong~~ strategy is needed to include women in different domains of life. "In a nutshell, the role of women is crucial for political and economic progress. Their exclusion from different sphere of life bring about a disastrous effect on the political and economic progress of a country. In order to ~~include~~ ensure their role, it needs a strategic path to adopt."
